

Drying Racks

Under slung drying racks can be a feature of the stand as shown. The example shown has four 45cm x 65cm plastic coated wire mesh racks which simply slide in and out for access. The frames are angled slightly for stability when moving the press. And guides have stops to prevent the frames from falling out. The example shown has the frames removed from the right this can be altered to be removed from the left to suit the buyer. The cost is £100 per frame, the example shown would be £400. The minimum frames ordered would be three.
