Polypropylene sheets to protect the bed  
As well as a registering surface.

Using felt tip pen or similar, your work  
can be registered and the marks can be  
cleaned off using a solvent which the  
sheets are resistant to.

The above sizes leave a clearance of  
5mm all round the bed.

Sheets can be taped onto the bed to  
secure them and allow for an easy  
removal. Sheet colour is off white.  
Sheets are only sold with presses
