Polypropylene sheets to protect the bed
As well as a registering surface.

Using felt tip pen or similar, your work
can be registered and the marks can be
cleaned off using a solvent which the
sheets are resistant to.

The above sizes leave a clearance of
5mm all round the bed.

Sheets can be taped onto the bed to
secure them and allow for an easy
removal. Sheet colour is off white.

Sheets are only sold with presses

These sheets do not have a grid on
