60					8	
54						5

Polypropylene sheets to protect the bed as well as a registering surface.

Using felt tip pen or similar, your work can be registered and the marks can be cleaned off using a solvent which the sheets are resistant to. The above sizes leave a clearance of 5mm all round the bed.

Sheets can be taped onto the bed to secure them and allow for an easy removal.

Sheet colour is off white or white.

Sheets are only sold with presses.

Sheets do not have a grid on them.
